

Chambers of Virginia Healthcare Collaborates Statewide to Help Local Businesses Access Health Insurance Offerings Through Their Chamber Membership

ChambersofVaHealthcare.com, a subsidiary of MyHealthily attended a statewide training event with Virginia Chamber of Commerce Executives (VACCE) to introduce health benefits to Virginia Association of Chamber Executives.

FOR IMMEDIATE RELEASE— Staunton, VA March 7, 2022

Media Inquiries: Cate Kirkland, Marketing Manager, cate@myhealthily.com (888) 272-1513.

Many Chambers of Commerce have had to learn how to pivot, and the past few years have been challenging. VACCE's Associate Members help in providing options to make these transitions simpler. This month VACCE hosted their spring conference, and Cate Kirkland, Marketing Manager at MyHealthily and Daniel Moffitt, Manager of Agent and Association Partnerships with MyHealthily both participated.

The mission of VACCE is to equip chamber of commerce professionals with leadership skills and tools to build innovative chambers. VACCE is a trusted resource for any Chamber of Commerce professional. From sales to operations and events to advocacy.

"Through our experience with VACCE," states Cate Kirkland, Marketing Manager, "MyHealthily continues to have outreach in assisting members in finding the best options for healthcare coverage, allowing chamber executives to focus more on their members and less on this issue."

MyHealthily has partnered with VACCE to support businesses through a new, innovative member benefit - Chambers of Virginia Healthcare. Chambers of Virginia Healthcare creates access to healthcare benefits for small businesses who are members of partnered chambers of commerce throughout Virginia. We invite the Virginia chamber community to celebrate the dedication of VACCE to help build and protect the health of the local business community. Together with VACCE, MyHealthily will provide the best available healthcare coverage solutions for VA chambers members. To learn more visit ChambersofVAHealthcare.com.
