### **MyHealthily Launches Ancillary Filtering Options**

**[ENGLEWOOD, NJ, December 22, 2022]** — MyHealthily Insurance Solutions announces their full-service platform now includes filtering options for all ancillary coverage.

*"We are excited to add more options and create a smoother more seamless process for all our clients. The addition of our ancillary filters is an amazing step in our journey."*

*-Michael Malhame, CEO of MyHealthily*

Ancillary coverage options are the perfect place to grow revenue for brokers and agents. We do this by ensuring plan options are easily sorted and selected in the MyHealthily platform to make a sale simpler. When shopping for ancillary coverage options like dental and vision to go along with major medical health insurance, employers are able to look at each need on its own.

Dental is now separated from vision coverage in the platform, along with other ancillary coverage options like short term disability, life insurance, hospital indemnity, and so many more options. By separating ancillary coverage options, it makes them less confusing and easier to compare and process.

Including the addition of being able to filter coverage plans by not only carrier, but by premium or annual maximum of coverage, employers are able to make more effective and educated choices on their healthcare coverage as a whole.

MyHealthily's all in one platform is changing the way brokers and agents look at, quote, sell, enroll, and service small group benefits for the better!

###

For brokers and agents who seek to provide small group benefits, **MyHealthily Insurance Solutions, LLC**, is the customer-centric, association-approved platform. Our proprietary platform provides agencies differentiation through plan options, streamlined software and profitability. Currently partnered with 40+ associations across the United States, MyHealthily is solving the biggest pain points for small businesses and the agents that serve them.
